

CATCH TIME

SS-015

CATCH TIME

Game Description

How terrible! There are so many swarms of insects and creatures in the orchard. The orchard keeper should keep the injurious insects from apples right away, otherwise the beautiful fruit will be eaten up. Your best way to defend your products is to sprinkle the pesticide. You have 35 seconds to clear out each wave of insects and creatures. The waves of insects will be out in order —— ladybirds, spiders, fruitflies, earthworms, beetles, bees, snakes, and greenflies. Your tube will sprinkle as time runs out. You begin with eight apples in the tree. With each increase of 2,000 points, a bonus apple will appear beneath your scores. Bonus apples are automatically placed in your tree at the beginning of the next wave. After the eight waves, the scoring peaks, and the insects cycle repeats. When you've lost all your apples and have used up all your pesticide, the game ends.

Preparation Steps

Step 1: Check to be sure that the Video Computer System is connected to the TV, the power supply is plugged in, and a controller is

plugged into the left jack at the rear of the Video Computer System.

Step 2: Insert a game Cartridge and then turn on the switch. (Caution: the switch should be turned off at all times when there is no cartridge in the console.)

Step 3: Select the game with the Game Select Switch and start the game by switching the Game Reset Switch.

Using Controller

Push joystick left or right and you'll move to the left or right. Pull joystick back and you'll aim toward the lower. Push joystick forward and you'll aim toward the upper. Press the red button to sprinkle the pesticide.

Scoring

Waves	ladybird	spider	fruitfly	earthworm	beetle	bee	snake	greenfly
points	5	10	15	20	25	30	35	40
Remaining Second	5	10	15	20	25	30	35	40
Remaining Apple	5	20	45	80	125	150	175	200
